Dublin Scioto High School

Dear Harold,

I saw the enclosed in todays paper. I don't know about these allegations. It seems alot to be speculation. I am more curious about where all his private cache of tapes and records went not only or so much on his death, but on that of Clyde Tolson. It is amazing that Hoover lived virtually his whole life in Washington, D.C. unable to vote for President during most of that time, but having a great effect on it.

Have a good week.

From DAVE KECK

Sincerely,

Dave
